PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience designing and deploying scalable web applications using React.js, Node.js, Express.js, and MongoDB. Proven ability to ship end-to-end features — responsive frontends, RESTful APIs, database design, authentication systems, and CI/CD deployments. Strong foundation in Data Structures, Algorithms, and system design with consistent delivery of measurable performance improvements.

EDUCATION

B.Tech in CSE (Artificial Intelligence)

Vignan Institute of Information Technology, AP

CGPA: 9.0

2023 – 2027

SKILLS SUMMARY

Languages: Python, Java, SQL, C

Frontend: React.js, HTML5, CSS3, JavaScript, Responsive Web Design

Backend: Node.js, Express.js, CRUD Operations, REST APIs, JWT, OAuth

Databases: MongoDB, MySQL, Firebase

DevOps & Tools: Git, GitHub, CI/CD, Render, Vercel, Netlify, Postman

Core CS: DSA, OOP, DBMS, OS, Computer Networks

AI Tools: Gemini API, RAG (Retrieval-Augmented Generation), Vector Embeddings, Google Colab

WORK EXPERIENCE

Web Development Intern | Royal Acquisition Private Limited

March 2026 – June 2026

- Redesigned the company website with responsive layouts and modern UI/UX improvements, decreasing mobile bounce rate by ~20% and achieving consistent experience across desktop, tablet, and mobile.
- Executed frontend performance and accessibility enhancements, accelerating average page load time by ~15%, resolved 10+ UI bugs, and ensured cross-browser compatibility across Chrome, Firefox, and Safari.

Full Stack / Web Development Intern | ApexPlanet

June 2025 – July 2025

- Built 8+ React.js modules with code splitting & lazy loading, accelerating page load time by 20% and improving Lighthouse scores.
- Architected 5+ RESTful APIs in Node.js/Express.js with MongoDB persistence — handling 1,000+ records with zero data integrity issues.
- Refactored UI into a reusable React component library, decreasing code duplication by ~25% and accelerating feature development time.
- Owned Git branching strategy & code reviews for a 4-member team, decreasing merge conflicts by 30% and improving PR cycle time.

PROJECTS

Online Face Authentication System

[Link](#)

Node.js | Express.js | MongoDB | Face-API.js | JWT | REST APIs | HTML5 | CSS3

- Achieved 95%+ face verification accuracy using Face-API.js descriptor matching — decreasing login time by 35% vs password auth.
- Designed RESTful authentication APIs delivering sub-300ms response times with concurrent multi-user session support.
- Enforced JWT-based session management with RBAC, securing multi-user environments with zero unauthorized access in testing.

CloudSphere AI – AI-Powered Cloud Storage & Document Intelligence Platform

[Link](#)

React.js | Node.js | Express.js | MongoDB Atlas | Cloudinary | Gemini AI | LangChain | Socket.io | JWT | Tailwind CSS

- Architected full-stack cloud platform with secure file storage, OCR-based text extraction (Tesseract.js), and Gemini AI document summarization.
- Built a RAG-based document chat system using LangChain for semantic search and context-aware Q&A with higher retrieval precision.
- Integrated real-time features via Socket.io (notifications, version control, duplicate detection) with CI/CD pipeline on Render.

GreenMind AI – Smart Farming System

[Link](#)

React.js | Node.js | Python | ML Integration | REST APIs | Predictive Analytics

- Built full-stack smart farming platform with React.js frontend, Node.js backend, and Python ML models via REST APIs — improving crop recommendation precision by 15%.
- Delivered real-time sensor data dashboard with predictive analytics and AI recommendations; deployed via CI/CD on Render.

ACHIEVEMENTS

- 1st Place in App Development (Synergy domain) at an inter-college hackathon — built and demoed a full-stack solution end-to-end.
- LeetCode Knight Badge holder — solved 300+ problems across Data Structures, Algorithms, and system design.
- Achieved 2-Star rating on CodeChef, demonstrating consistent performance in competitive programming contests.
- Completed Google AI & ML Developer Program via EduSkills — certified with hands-on AI/ML integration experience.
